

Jacquelyn Fambrough

559-904-8575 jacquelynfambrough@gmail.com

<http://www.jacquelynfambrough.com>

SKILLS

Technologies: Git/GitHub, Heroku, jQuery, AJAX, JSON, XML, SmarterHQ, Sales Force Marketing Cloud/Exact Target, Google Analytics, Corel Painter, Illustrator, Photoshop, Magento, S/FTP, CSV, API's

Databases/Database Tools: MongoDB, PostgreSQL

Languages: JavaScript, Ruby, HTML, CSS, AMPScript, XML

Frameworks: Node.js, ExpressJS, Rails, AngularJS, Bootstrap

RELEVANT EXPERIENCE

Front End Developer, Loxa Beauty: August 2016 - Present

Coded and sent a variety of email campaigns and triggered automations using CSS, HTML, and AMPScript, MySQL, data extensions, and data queries

Web Development Immersive Student, General Assembly: March - June 2016

Created fully operational full stack responsive applications in one week sprints

Took part in daily stand-ups and worked on teams with other developers utilizing pair-programming and working with Git/Github

PROJECTS

Awfulix

A movie rating and review app catering to those who enjoy poorly made movies.

- Technologies: Ruby on Rails, PostgreSQL, OMDb API, HTTParty, Raty, Bootstrap, HTML, and CSS.
- This app was an overall challenging, but successful solo project where I was able to overcome challenges in implementation of OMDb API integration via HTTParty, and rating feature via Raty.

Plantastic

An event planning app that allows users to create, join, and comment on events.

- Technologies: Ruby on Rails, Bootstrap, Google Places API, PostgreSQL, SASS, HTML, jQuery
- Worked within a team to create this app, demonstrating strong communication and collaborative skills using Github, stand-ups, and paired program as our tools.
- Personally responsible for setting up entity relationships, creating comment feature, bug fixes, and other minor details.

A Picture Worth 10,000 Characters

An app that prompts and hosts short stories, challenging users with a max word count.

- Technologies: JavaScript, jQuery, MongoDB, Node.js, Express.js, Bootstrap, AJAX, JSON, HTML, CSS
- First full-stack solo project where I created responsive MEN app with full CRUD features.

EDUCATION

General Assembly - San Francisco, CA Full Stack Web Development, March 2016 - June 2016

COS - Visalia/Hanford, CA - Associates of Science in Natural Sciences, 2011 - 2013

Academy of Art University - Illustration
