## SKILLS

---

**Technologies:** Git/GitHub, Heroku, jQuery, AJAX, JSON, Corel Painter, Illustrator, Photoshop, SmarterHQ, Sales Force Marketing Cloud/Exact Target, Google Analytics, Magento

**Databases/Database Tools:** MongoDB, PostgreSQL

**Languages:** JavaScript, Ruby, HTML, CSS, AMPScript

**Frameworks:** Node.js, ExpressJS, Rails, AngularJS, Bootstrap

## RELEVANT EXPERIENCE

---

### **Front End Developer, Loxa Beauty: August 2016 - Present**

Coded and sent email a variety of email campaigns and blogs using CSS, HTML, and AMP-Script.

### **Web Development Immersive Student, General Assembly: March - June 2016**

Created fully operational full stack responsive applications in one week sprints

Took part in daily stand-ups and worked on teams with other developers utilizing pair-programming and working with Git/Github

## PROJECTS

---

### **Awfulix**

*A movie rating and review app catering to those who enjoy poorly made movies.*

- Technologies: Ruby on Rails, PostgreSQL, OMDb API, HTTParty, Raty, Bootstrap, HTML, and CSS.
- This app was an overall challenging, but successful solo project where I was able to overcome challenges in implementation of OMDb API integration via HTTParty, and rating feature via Raty.

### **Plantastic**

*An event planning app that allows users to create, join, and comment on events.*

- Technologies: Ruby on Rails, Bootstrap, Google Places API, PostgreSQL, SASS, HTML, jQuery
- Worked within a team to create this app, demonstrating strong communication and collaborative skills using Github, stand-ups, and paired program as our tools.
- Personally responsible for setting up entity relationships, creating comment feature, bug fixes, and other minor details.

### **A Picture Worth 10,000 Characters**

*An app that prompts and hosts short stories, challenging users with a max word count.*

- Technologies: JavaScript, jQuery, MongoDB, Node.js, Express.js, Bootstrap, AJAX, JSON, HTML, CSS
- First full-stack solo project where I created responsive MEN app with full CRUD features.

## EDUCATION

---

**General Assembly** - San Francisco, CA Full Stack Web Development, March 2016 - June 2016

**COS** - Visalia/Hanford, CA - Associates of Science in Natural Sciences, 2011 - 2013

**Academy of Art University** - Illustration
