Skills

Languages: JavaScript, Ruby, HTML, CSS
Frameworks: Node.js, Express, Rails, AngularJS, Bootstrap

Databases/Database Tools: MongoDB, PostgreSQL
Technologies: Git/GitHub, Heroku, jQuery, AJAX, JSON, Corel Painter, Illustrator, Photoshop

Relevant Experience

Web Development Immersive Student General Assembly March 2016 - June 2016
Created fully operational full stack responsive applications in 1 week sprints
Took part in daily stand-ups and worked on teams with other developers utilizing pair-programming and working with Git/Github

Projects:

Awfulix
A movie rating and review app designed to promote poorly made movies. The app allows users to create a profile, find movies to rate and write reviews on.
• Technologies used: Ruby on Rails, PostgreSQL, OMDb API, and HTTParty, Raty, Bootstrap, HTML, CSS
• This app was an overall challenging, but successful solo project where I was able to overcome challenges in implementation of OMDb API integration via HTTParty, and rating feature via Raty.

Plantastic
An event planning app created to allow users to create or join events/trips, add their contributions, and discuss event details on event comment boards.
• Technologies used : Ruby on Rails, Bootstrap, Google Places API, PostgresSQL, SASS, HTML, CSS, jQuery
• Worked within a team to create this app, demonstrating strong communication and collaborative skills using Github, stand-ups, and paired program as our tools.
• Personally responsible for setting up entity relationships, creating comment feature, bug fixes, and other minor details.

A Picture Worth 10,000 Characters
An app designed to exercise the minds of creative writers by providing a place to write and post a short piece prompted by a picture displayed on the website.
• Technologies used: JavaScript, jQuery, MongoDB, Node.js, Express.js, Bootstrap, AJAX, JSON, HTML, CSS
• First full-stack solo project where I created responsive MEAN app with full CRUD features.

Other Work History

Salon Director - Tailored Salon - San Francisco, CA August 2013 - March 2016
• Acted as the Art director and curator for salon
• Managed and illustrated (using ArtRage and Illustrator) newsletter for promoting the salon's events, services, and notices.
